

Instructions :

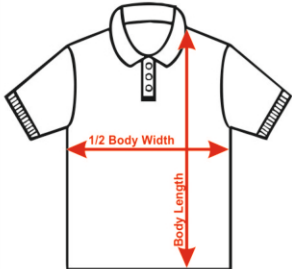

While taking chest measurements please refer to chart and round up to nearest 5 cm
 Eg- if half chest measurement is 41cm the size of t-shirt will be (41 x 2 = 82) 85 cm (round up)

For all the products the measuring process will be the same

While ordering tops (t-shirt /over coat etc) please base the size from chest measurement
 While ordering bottoms (shorts/skirt/pant etc) please base the size from length measurement

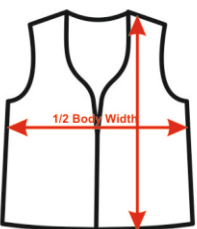

**we use all measurements in centimeters (cm) only inches are given for reference
 the factor for conversion is inches to cm is 2.54 i.e 22 inches = 22 x 2.54 =55 (55.88)**

**Note : All measurements are in cm only
 tolerance of +/- 2 cm may be there due to practical constraints**
